

Baseball Devotional

Are you ready for the most rewarding baseball season ever? People don't call baseball "America's pastime" for nothing. Our family loves baseball, but we also believe there is a lot more to this great game than just the game itself. There are a lot of life lessons that we can learn from baseball. We are even more excited about being able to use the game of baseball to teach kids about the love of Jesus. These books will show you how to apply the Bible to baseball and to your every day lives. For those of you that are already believers in Jesus, these devotionals provide you an opportunity to share God's love with others, either by doing these devotionals together as a team or by giving a copy to a friend. See the FAQ's section for great tips for how you may want to do these devotionals with your team. These devotionals not only give you an important message, there are also activities, trivia questions, and more in every lesson. Check out the Devotional Excerpts link and see it for yourself. When you are finished, be sure to go to the shopping page to see our special offer for buying two books (keep one and share God's love with a friend), or an even better offer for buying books for your entire team. Many coaches and team moms work hard to find sponsors to cover the cost of uniforms, tournament fees, and equipment. Why not use some of that sponsorship money to equip our precious children with a Christian message that will benefit them not only in this life, but in the next life to come.
